## WHY GLIDE?

316 SS Fasteners

The **GLIDE** GMSS Seal System is the undisputed #1 dripless system in the ski/wake boat market. Our designs have been leading the industry for almost a decade and a half, evolving from both builder and customer feedback, allowing us to eliminate previous concerns and build the most refined and bulletproof seal system. We offer the longest warranty in the industry because we know your **GLIDE** Shaft Seal will keep you on the water for many summers to come!

Silicone Hump Hose articulating hump that flexes to aid in misalignment as opposed to straight hose

Clamps available as shown, or IFE embossed clamps
